Green life starts here

Electric Vehicle

XXPLORE AUTOMOTIVE PVT LTD. (XAPL) established its first manufacturing unit at Faridabad, Haryana in the year 2014. Being one of the best Electric rickshaw manufacturers in India, XXPLORE is into the process of manufacturing environment friendly equipment like the e-rickshaws. Spread across an impressive area of 1.5 acres, the industrial facility houses an assimilated manufacturing unit with all inclusive competences for press shop, weld shop, paint shop, plastic molding, frame assembly, and testing facilities.

Being among the best Electric rickshaw manufacturer in Faridabad, our products are incalculably admired for strong construction, high performance, longer service life, comfortable seats and low maintenance. These products are indeed designed and manufactured by our reliable team of experts who are into using high grade components and cutting-edge technology as per the international quality standards. In order to fulfill the varied requirements of our clients in a well-organized manner, our company provides the Electric battery rickshaw in various specifications at reasonable prices.

Our eco-friendly product does not create any kind of pollution. With its better speed it will let the people commute to their destinations faster. The sitting capacity of these rickshaws is higher than that of ordinary rickshaws. Also, the maintenance cost is very less as compared to auto-rickshaws.

With the support of its beloved patrons, XXPLORE AUTOMOTIVE PVT. LTD. (XAPL) today has its strong sales and dealership network spread across the nation of India. At XAPL, the dealerships are based on the principle of “3s facility”, which believes in offering complete range of sales, service and spares services to the customers. We are also known for being the best and most trusted E rickshaw exporter in Faridabad.

Xxplore Automotive pvt ltd. Is the Sister concern for the dhiman group companies. Plz find below the attached profile.
